

**Timber Signs prides itself on producing high-quality original carved wooden signs. □**

**Each sign begins with an idea**, which is combined with artistic creativity – either ours or yours – to develop a design that matches your needs. Mother nature provides us with the most unique palate of all – **wood from the forests of**

**Northwestern Ontario**. We use our computer operated CNC-router to ensure the utmost precision in layout and cutting ability. Each sign is then carefully hand-finished, while paying close attention to preserving the natural character.

The important role that signs play cannot be understated, whether you are a business, community, or an individual.

**Our goal is to craft each sign to convey a positive impression that is both unique and lasting.**
