

As business owners, we understand the important impact that signs have in making a lasting statement to the public. Your business sign should always reflect the

integrity, originality, and professionalism

that is central to your business. For that reason, not only do we take great pride in the signs that display our own business name, we take great pride in the design, building, finishing, installation, and maintenance of the signs that display yours. This is why we offer our business clients a variety of services that exceeds “just making a sign”. So, for those business clients whose needs go beyond a single finished storefront sign, we offer multi-sign and/or multi-service packages to enable you to save money while you invest in your business.

Our business signs can be a unique as your business, because we offer a variety of **logo, graphic, and text design services**

. If you are looking for a new brand for your business, or if you simply want to update your signature brand we can provide you with the service, support, and tools you need to ensure that your brand is properly communicated to the public.

We offer our business clients the 3D depth of raised or engraved lettering

– all crafted with computer precision. Where possible, we strive to ensure that the materials and products used in our signs are natural-based, and are either manufactured or purchased locally so that you can feel secure that your business is supporting local business. Whether your business is catering to fly-in guests, selling real estate, or securing a corporate foothold in the marketplace,

Timber Signs will help you achieve your business goals.
